

Match Day Safety Briefing - Parents

To be delivered to opposition parents at home games and initially for home parents until used to new procedures.

COVID - CODE OF BEHAVIOUR

Covid-19 is a highly infectious and dangerous disease.

We are all here to for our kids to have fun and get back to playing football.

Risk cannot be completely eradicated but can be reduced. So taken a number of steps:

Onsite

- No smoking or vaping allowed on site
- Using a one way system
- Hand Sanitizer available
- Requirement to record contact details for everyone form NHS Track and Trace, please co-operate and if you have not done so please do so now.

Match

- Regularly clean ball/equipment will take place before and during breaks in play. Players will be encouraged to use hand sanitizer pre game, at half time and post the match (if possible)
- Must comply with social distancing rules (currently not in groups of more than 6 and keeping 1 metre+ but ideally 2 metres apart from non-household members)
- **First aid** – You may be asked to apply basic first aid support to your child if it is for a non serious, life threatening injuries. Where social distancing needs to be broken this will be on request of coach
- **Be aware of your own personal health.** If you show any of the Covid-19 symptoms you must go home, inform NHS Test and Trace and seek medical advice.
- **Be responsible.** Follow guidance issued by your club.
- **Avoid shouting** or raising your voice, we know this can be difficult but it will help the players to hear each other and concentrate on playing as well as reducing risk of infection which is greater particularly if shouting in direction of another person.
- **After the game.** Be aware that other users may be waiting to use the facilities and car parking is limited. Any socialising must follow the **Government's guidance** on social distancing.
